TANAJI SHIRISH BODADKAR

Chhatrapati Sambhajinagar, MH | +91 8767174377 | tanajibodadkar@gmail.com | LinkedIn | GitHub

PROFILE

Computer Science and Design student with a strong foundation in full-stack development. Skilled in Java, modern web technologies, and relational databases, with an interest in building scalable and efficient applications. Passionate about learning new technologies and applying software engineering principles to real-world problems.

EDUCATION

Maharashtra Institute of Technology, Chhatrapati Sambhajinagar 2023 – 2027
B.Tech – Computer Science and Design (Cybersecurity Minor)

Defence Services Junior College, Chhatrapati Sambhajinagar 2023
Higher Secondary Certificate (HSC) – Science Stream

TECHNICAL SKILLS

Programming: Java, Python, C
Frontend: HTML, CSS, JavaScript, React.js
Backend: Node.js
Databases: SQL, PostgreSQL, MySQL
Tools: Git, GitHub, VS Code
Concepts: Data Structures & Algorithms, Cybersecurity Basics, Cloud Computing

PROJECTS

Carbon Footprint Estimation for Software Systems | *Major Academic Project*

- Built a web-based system to estimate the carbon footprint of software systems and digital infrastructure.
- Analyzed energy consumption across devices and cloud services, translating usage data into measurable CO2 equivalent emissions.
- Delivered actionable insights to help developers and organizations adopt sustainable, energy-efficient computing practices.

Tech Stack: React.js, Node.js, REST APIs

Jarvis Virtual Assistant

- Developed a voice-controlled virtual assistant using Python capable of natural language interaction.
- Executes system commands, performs web searches, and automates repetitive tasks hands-free.

Tech Stack: Python, SpeechRecognition

CERTIFICATIONS

Building LLM Applications with Prompt Engineering — NVIDIA Deep Learning Institute (Mar 2026)
• Building Transformer-Based NLP Applications — NVIDIA Deep Learning Institute (Feb 2026)
• Fundamentals of Deep Learning — NVIDIA Deep Learning Institute (Feb 2026)
• The Complete SQL Bootcamp: Go from Zero to Hero — Udemy (Feb 2025)
• Full Stack Developer Bootcamp — GeeksforGeeks

ACTIVITIES & INTERESTS

- Participated in multiple hackathons focused on technology innovation and sustainable computing solutions, enhancing problem-solving and teamwork skills.
- Attended an industrial visit to the Indian Institute of Science (IISc), Bangalore, gaining exposure to advanced research and innovation environments.
- Served as Event Manager for a college event, coordinating planning, team execution, and event operations.
- Actively learning full-stack development (MERN stack) and backend technologies, with a focus on building scalable applications.
